

LTI Mindtree

Interview Experiences

Position	Graduate Engineering Trainee
Compensation	INR 4,05,233 per Annum
Eligibility criteria	All branches of BTech, MCA and MTech with 60% or 6 CGPA in 10th, 12th, Degree and PG

Note:

The data provided is based on information available as of 2025. Generally, there are 3 rounds – **Online Assessment**, **Technical** and **HR**. The interviews are conducted in **Virtual Mode** and the rounds take place **one by one**. If you qualify the **Technical Round**, you will move forward to the **HR Round**.

I have not listed the selection status of every student. Only those who personally shared their LTIMindtree selection updates are mentioned here. The interview experiences written are based on students who appeared for both Technical and HR rounds. Covering both rounds in their experience does not necessarily mean they were selected. Each round was elimination-based – some students were eliminated after the Technical round, while some students(very few) eliminated after the HR round. But most of the selections happened after the HR round.

The technical shortlists are usually released within one week after the technical interview. Following this, the **HR interview** is typically scheduled within one week of the technical shortlist, which usually takes place **about a week after** the **Technical interview**. The final result is then published within a **maximum of two weeks**.

“All interview experiences have been written in a highly professional format by our team.” All the very best to students preparing for the interview — go crack it!
#CRACKLTIMINDTREE

Disclaimer:

This material is prepared based on **students' interview experiences**. It is not affiliated with or endorsed by **LTIMindtree**. The details shared are for **guidance and preparation purposes only** and do **not guarantee selection**.

Interview Experience 1

Duration: 22 Minutes - 25 Minutes

Technical Interview:

1. Tell me something about Yourself.
2. Tell me the machine learning project in details
3. What inspires you to make that project?
4. Tell types of Machine Learning?
5. Formula of Precision and Recall
6. What is an interface? How is it different from an abstract class?
7. What is Polymorphism?
8. Types of Polymorphism
9. What is Constructor and Destructor
10. Types of constructor
11. What is method overloading and method overriding
12. **Coding:** Write a code in the chatbox or notepad by sharing your screen to find the median of an array.
13. What are the types of Joins?
14. **SQL Query:** Write a SQL Query to find the 2nd highest salary
15. About DDL,DML,DCL commands
16. Drop, Truncate and Delete difference
17. ACID properties

18. Write a query to find all countries name that starts with "M"
19. Do you have any questions for me?

Duration: 12 Minutes

HR Interview:

1. Introduce Yourself
2. Tell me about your Projects in Brief?
3. About LTI Mindtree?
4. Why you choose CSE
5. Where do you see yourself in 5 years?
6. Ready to Relocate?
7. Are you open to all technologies?
8. Do you have any questions for me?

Interview Experience 2

Duration: 21 Minutes

Technical Interview:

1. Tell me something about Yourself.
2. Tell me about your most recent Project ?
3. What is your role in the project?
4. Linear search or Binary search, Which is faster?
5. Explain bubble sort

6. Difference between Stack and Queue
7. Explain Stack and Queue with real life Applications
8. Operations of stack data structure
9. What Language do you prefer to do coding?
10. Difference between C and C++
11. What is an inline function
12. Operator overloading and operator Overriding difference
13. Explain 4 pillars of OOPs
14. Types of Inheritance
15. **Coding:** Remove vowels from a string, take user input
16. **Coding:** Check Prime Number
17. SQL joins details
18. What is SQL views
19. What is Deadlock?
20. Any Questions for me?

Duration: 10 Minutes

HR Interview:

1. Introduce Yourself
2. Walk me through your resume.
3. How do you handle stress?
4. About LTI Mindtree?
5. How would you describe yourself in 3 words?

6. Which subject did you find most challenging during your academics and why?
7. Ready to Relocate?
8. Any questions?

Interview Experience 3

Duration: 30 Minutes

Technical Interview:

1. Introduce Yourself
2. Explain the Internships mentioned in the Project
3. Why did you choose that project?
4. What was your contribution to the project?
5. Explain Normalization in DBMS.
6. Types of Normalization
7. Difference between Primary key and Unique key.
8. **Coding:** Write a program to reverse words in a sentence (Given: "LTIMindtree" → "eertdniMITL").
9. **SQL Query:** Write a query to fetch the top 3 highest salaries from the employee table.
10. Explain Primary Index and Secondary Index.
11. What are Triggers in SQL?
12. Explain Encapsulation with real life examples.
13. What is Foreign Key in SQL?

- 
14. Difference between Linear Search and Binary Search.
 15. What is the difference between Abstract Class and Interface
 16. Constructor and destructor difference
 17. Explain Stack vs Queue.
 18. Any questions?

Duration: 14 Minutes

HR Interview:

1. Introduce Yourself briefly
2. Tell me about your Projects in Brief?
3. What was your role in the project?
4. What do you know about LTIMindtree
5. Which was your best academic achievement?
6. Where do you see yourself in 5 years?
7. Are You open to all technologies?
8. How did you manage deadlines in your project?
9. Any questions?

Interview Experience 4

Duration: 27 Minutes

Technical Interview:

1. Introduce Yourself briefly
2. Tell me about your projects?
3. How did you select this project idea?
4. Did you work in a team?
5. How did you handle conflicts during making the projects?
6. What are Python decorators?
7. What is Python's Global Interpreter Lock
8. Difference between Python 2 and Python 3.
9. Current version of python
10. **SQL Query:** Fetch duplicate records from a table
11. **SQL Query:** Get employees with salary greater than average salary
12. **Coding:** Find the largest element in an array
13. What is multiple inheritance?
14. Explain method overloading and overriding in Python.
15. Explain the 4 pillars of OOPs in Java.
16. What is polymorphism
17. Tell types of Inheritance
18. Explain 2-Tier vs 3-Tier Architecture.
19. SQL views?

20. Any questions?

Duration: 8 Minutes

HR Interview:

1. Introduce Yourself
2. What are your hobbies?
3. Why did you choose this branch?
4. Tell me about your favorite subject and why.
5. Did you face any failures in your academics? How did you overcome them?
6. Are you ready to relocate?

Interview Experience 5

Duration: 25 Minutes

Technical Interview:

1. Introduce Yourself
2. About Your Full stack project Details
3. Which database did you use? Why?
4. What are access modifiers in Java?
5. What is a super keyword in Java?
6. Difference between Heap and Stack memory in Java.

7. **Coding:** Find GCD of two numbers
8. Only tell the Logic of Armstrong Number
9. Difference between SQL and NoSQL.
10. DBMS and RDBMS difference
11. What are Transactions?
12. ACID properties
13. Explain Referential Integrity.
14. Data Redundancy and Data dependency
15. Difference between OLAP and OLTP.
16. Difference between Doubly and Singly Linked List.
17. **SQL Query:** Write SQL query to fetch employees earning max salary in each department.
18. What is Abstraction?
19. Difference between Abstract Class and Interface
20. Why is data hiding important?
21. Any questions?

Duration: 8 Minutes

HR Interview:

1. Introduce Yourself
2. How would you describe yourself in 3 words?
3. What are your strengths?
4. How do you spend your leisure time?

5. Why should we hire you?
6. Are you Ready to relocate?

Interview Experience 6

Duration: 32 Minutes

Technical Interview:

1. Tell me something about Yourself
2. Tell me about your cybersecurity project?
3. Did you implement security in your project? If yes, how?
4. What is the difference between final, finally, and finalize()?
5. What is Exception Handling in Java?
6. Types of exceptions.
7. Difference between Heap and Stack memory in Java.
8. Checked vs Unchecked Exceptions.
9. What is Set in Java? How is it different from List?
10. What are SQL Aggregation Functions?
11. Explain Referential Integrity.
12. Difference between BFS and DFS.
13. IPV4 and IPV6 difference
14. **Coding:** Count frequency of characters in a string
15. **Coding:** Check the Number is armstrong or not
16. What is multiple inheritance?

17. How does Python and Java handle it differently?

18. Any questions

Duration: 10 Minutes

HR Interview:

1. Tell me something about yourself
2. Describe a typical day in your life.
3. How did you manage deadlines in your project?
4. How do you handle criticism?
5. Where do you see yourself after 5 years?
6. What do you know about LTIMindtree?
7. Any questions?

Interview Experience 7

Duration: 28 Minutes

Technical Interview:

1. Tell me something about Yourself
2. Tell me about your Final year project?
3. If you had more time, what improvements would you add in the Project?
4. What are magic methods in Python? (`__init__`, `__str__`, `__repr__`)

5. Difference between Abstract Class, Interface, and Concrete Class
6. Explain how OOPs help in code reusability and maintainability.
7. **Coding:** Generate Fibonacci series up to N terms.
8. **Coding:** Find Median of an array
9. What is Inheritance?
10. What are its types?
11. What is Polymorphism?
12. Data Abstraction
13. With a real life example tell 4 pillars of OOPs
14. **SQL Query:** Fetch the highest salary in each department
15. Any Questions?

HR Interview:

Status: Not Selected For HR

Interview Experience 8

Duration: 20 Minutes

Technical Interview:

1. Tell me something about Yourself
2. What was your specific role in the project mentioned?
3. What is the difference between DELETE, TRUNCATE, and DROP?
4. What are ACID properties in a database?
5. **Coding:** Write a Python function to check if a string is palindrome.
6. **Coding:** Write a Python program to reverse words in a sentence.
7. Explain 1NF, 2NF, 3NF.
8. What is a view in SQL?
9. Difference between primary key, foreign key, and unique key?
10. Explain OSI Model layers.
11. What is a deadlock?
12. **SQL Query:** Count the total number of employees.
13. **SQL Query:** Display departments having more than 5 employees.
14. Any Questions

Duration: 9 Minutes

HR Interview:

1. Tell me something about yourself
2. Tell me about your favorite subject and why.
3. Tell me about your Projects in Brief?
4. What was your role in the project?
5. Where do you see yourself after 5 years?
6. Describe a time you showed leadership.
7. Your Hobbies.

Interview Experience 9

Duration: 23 Minutes

Technical Interview:

1. Tell me something about Yourself that is not mentioned in your resume.
2. Explain your project ?
3. Your Extra curricular activities
4. **Coding:** Write Java code to reverse the words in a sentence.
5. What is a Linked List?
6. Difference between Singly and Doubly Linked List.

7. Explain time complexity of common sorting algorithms:
Bubble Sort, Merge Sort, Quick Sort.
8. **Coding:** Given an array of integers, write a program to move all zeros to the end while maintaining order of other elements.
9. **SQL Query:** Retrieve employees who joined in the year 2022 from EMPLOYEE table
10. Any Questions

Duration: 12 Minutes

HR Interview:

1. Introduce Yourself
2. Did you participate in any workshops or online courses?
3. Tell me about your favorite subject and why.
4. Explain your project in brief.
5. How did you manage deadlines in your project?
6. Ready to Relocate
7. About the company?

Interview Experience 10

Duration: 20 Minutes

Technical Interview:

1. Tell me something about Yourself
2. **SQL Query:** Display employee names in uppercase.
3. **SQL Query:** Find employees with salaries greater than the average salary.
4. JDK,JVM and JRE
5. Why Java is Platform Independent
6. What is bytecode?
7. **Coding:** Reverse a String
8. What is Encapsulation?
9. What are types of Inheritance?
10. Any Questions

Duration: 10 Minutes

HR Interview:

1. Introduce Yourself
2. Tell me about a time you faced a difficult situation.
3. How do you handle criticism?
4. What are your strengths?
5. Are you open to learning new technologies?

6. Are you more of a leader or a follower?

7. Any questions?

Interview Experience 11

Duration: 25 Minutes

Technical Interview:

1. Tell me something about Yourself
2. Tell me about your project details?
3. Difference between Abstract Class and Interface.
4. Difference between == and .equals() in Java.
5. What is a Constructor? Types of constructors in Java.
6. Difference between DDL, DML, and DCL commands.
7. What is BCNF
8. Explain Linear Search and Binary Search. Which is faster and why?
9. **Coding:** Write a program to check if a string is a palindrome.
10. **Coding:** Write fibonacci number number up to N terms
11. Explain Polymorphism and its types.
12. SQL views
13. Paging and Demand Paging
14. States of Process
15. Any Questions?

Duration: 15 Minutes

HR Interview:

1. Introduce Yourself
2. Tell me about yourself in 1–2 minutes.
3. What are your strengths and weaknesses?
4. Why do you want to join LTI Mindtree?
5. Describe a time when you faced a challenge and how you overcame it.
6. Where do you see yourself in 5 years?
7. Are you open to relocation ?
8. What are your hobbies, and how do they help you in your career?
9. Any Questions?

Interview Experience 12

Duration: 30 Minutes

Technical Interview:

1. Introduce Yourself
2. Fullstack Project Details
3. What is your contribution to the project?
4. About AWS and GET

5. **SQL Query:** Write a SQL query to fetch the 2nd highest salary from the Employee table.
6. **SQL Query:** Fetch duplicates in a table
7. **Coding:** Implement Bubble Sort in Java.
8. Explain try-catch-finally block.
9. Difference between method overloading and method overriding.
10. What are Access modifiers?
11. What is Clustered index and non clustered index
12. SQL triggers
13. Normalization and types
14. Benefits of DBMS over Filesystem
15. What is aging and starvation
16. What is an operating system?
17. What is aggregate functions
18. What is SQL joins
19. Stack and Queue
20. Any Questions

Duration: 10 Minutes

HR Interview:

1. Tell me something about yourself
2. Why did you choose your stream?

3. Tell me about your final year internship.
4. How do you handle criticism or feedback?
5. Give an example of a time you worked successfully in a team.
6. What motivates you to perform your best?
7. How do you manage tight deadlines or stress at work?
8. Are you ready to relocate?
9. Any Questions?

Interview Experience 13

Duration: 25 Minutes

Technical Interview:

1. Introduce Yourself
2. What was your specific role and contribution in the internship?
3. How did you manage deadlines during the internship?
4. Difference between Array and Linked List.
5. Aggregate functions of SQL
6. What is normalization?
7. Explain 1NF, 2NF, 3NF and remaining all the types
8. Explain different file modes (r, w, a, b, x) in Python.
9. Difference between read(), readline(), and readlines().

10. Explain mutable vs immutable objects in Python.
11. Deep copy and shallow copy difference
12. Python iterator and python decorator
13. **Coding:** Armstrong Number
14. **Coding:** Write an array and find mean and median of an array
15. **SQL Query:** Write a SQL query to fetch the 2nd minimum highest salary from the Employee table.
16. Any Questions

Duration: 10 Minutes

HR Interview:

1. Tell me something about yourself
2. About your project
3. What do you know about LTIMindtree
4. Ready to relocate
5. Open to all technologies?
6. Any questions?

Interview Experience 14

Duration: 25 Minutes

Technical Interview:

1. Introduce yourself briefly
2. About Your Projects
3. What Problems you faced during the project and how did you overcome it?
4. What are the 4 pillars of OOP?
5. What is garbage collections in java
6. JDK,JVM and JRE
7. **Coding:** Remove the repetitive elements of an array
8. **Coding:** Merge Two Sorted Arrays
9. Difference between primary key, foreign key, and unique key.
10. Difference between Clustered index and Non Clustered index
11. SQL views
12. SQL Joins and Types
13. **SQL Query:** Fetch employees whose names start with 'A'.
14. You Joined a Sports club in Your college, please share about this briefly.
15. Your Hobbies
16. Any Questions?

Duration: 10 Minutes

HR Interview:

1. Introduce yourself
2. What is your greatest achievement so far?
3. How do you stay updated with the latest technology trends?
4. What are your short-term career goals?
5. Do you have any plans for higher study?
6. Tell me about a mistake you made and what you learned from it.
7. Ready to relocate?

Interview Experience 15

Duration: 30 Minutes

Technical Interview:

1. Tell me something about Yourself
2. About Your projects in details
3. Explain exception handling in Java and write a small code snippet using try-catch-finally.
4. **Coding:** Write a Java program to remove duplicates from an array.
5. What are ACID properties in DBMS?

6. **Coding:** Write a program to find the largest element in an array.
7. **SQL Query:** Retrieve all records from the Employee table.
8. LIFO and FIFO difference
9. Deadlock and its prevention
10. Difference between == and .equals() in Java.
11. What is a Constructor? Types of constructors in Java.
12. SQL constraints
13. DBMS and RDBMS difference
14. Primary and Foreign Key difference
15. Any Questions?

Duration: 10 Minutes

HR Interview:

1. Introduce yourself
2. About your projects
3. Your hobbies
4. How do you prioritize tasks when you have multiple deadlines?
5. About LTIMindtree details
6. Any Questions

Interview Experience 16

Duration: 20 Minutes

Branch: EEE

Technical Interview:

1. Tell me something about yourself.
2. Tell me about Your Project.
3. What inspires you to make that Project
4. Explain Ohm's Law
5. What is the difference between SRAM and DRAM?
6. What is a transformer and how does it work?
7. **Coding:** Write a program to check if a string is a prime or not
8. What are firewalls?
9. What is Network Node
10. Since you are from EEE, why are you interested in IT domain
11. Any Questions

Duration: 5 Minutes

HR Interview:

1. Introduce yourself
2. About your projects
3. Ready to relocate

4. Any Questions

Interview Experience 17

Duration: 35 Minutes

Technical Interview:

1. Tell me about yourself, include your academics, achievement, extra curricular in that
2. You mentioned there is a year gap between your 12 th and graduation, may i know the reason
3. What is your rank in JEE Main
4. Which Programming language you prefer for coding
5. **Coding:** By taking User input , reverse your input or string
6. **Coding:** Anagram Coding
7. **Coding:** Find all non repeating elements of an array
8. About the Literature Club in your college
9. Any questions

Duration: 7 Minutes

HR Interview:

1. Introduce yourself
2. Ready to relocate
3. Show your aadhar card

4. How you handle criticism
5. Strengths and weakness
6. Any questions

Interview Experience 18

Duration: 20 Minutes

Technical Interview:

1. Tell me about yourself
2. Tell me about a mistake and what you learned from it
3. How do you stay updated with the latest technology trends?
4. **Coding:** Find all duplicate elements in an array
5. Your hobbies
6. NCC mentioned in your resume
7. Show your aadhar card
8. Any Questions

Duration: 15 Minutes

HR Interview:

1. Introduce yourself
2. How do you handle failure?
3. About your projects
4. Ready to relocate

5. If not selected today, what would be your next step?
6. Why should we hire you over other candidates?
7. How do you prioritize tasks when you have multiple deadlines?
8. Any Questions

Interview Experience 19

Duration: 35 Minutes

Technical Interview:

1. Introduce yourself
2. Mention something that is not present in your resume
3. Difference between Java and Python.
4. About your Projects
5. What was the biggest challenge you faced during your project and how did you solve it?
6. What is the difference between method overloading and method overriding?
7. Current version of java
8. Which version of java u are using
9. **Coding:** Write a program to check if a number is prime or not.
10. **Coding:** Median of an array
11. **Coding:** Sum of digits of a number

12. Any Questions

Duration: 10 Minutes

HR Interview:

1. Introduce yourself
2. Why do you want to join LTI Mindtree?
3. Are you ready to relocate?
4. Any Questions

Interview Experience 20

Duration: 30 Minutes

Technical Interview:

1. Tell me something about yourself
2. About Your projects
3. If you had more time, what improvements would you add to your project?
4. Explain transaction states in DBMS.
5. What is the difference between TRUNCATE, DELETE, and DROP?
6. **Coding:** Find second largest number in Array
7. **Coding:** Count Frequency of each element in an array

8. What is the difference between clustered and non-clustered indexes?
9. **SQL Query:** Write a SQL query to fetch the second highest salary from the Employee table.
10. What are different types of trees in DSA?
11. What are the differences between Stack and Queue?
12. What is the difference between final, finally, and finalize() in Java?
13. JDK, JVM and JRE
14. Any Questions?

HR Interview:

Status: **Not Selected For HR**

Interview Experience 21

Duration: 25 Minutes

Technical Interview:

1. Tell me something about yourself
2. Explain your project in brief.
3. How do you handle conflicts with teammates?
4. **SQL Query:** Fetch employees whose names start with 'A'.
5. What is garbage collections in java

6. Explain time complexity of common sorting algorithms:
Bubble Sort, Merge Sort, Quick Sort.
7. LIFO and FIFO difference
8. Tell me about your favorite subject and why.
9. Difference between DDL, DML, and DCL commands.
17. What is BCNF
18. Types of Normalization
19. Explain 1NF, 2NF, 3NF.
20. What are Python decorators?
21. What is Python's Global Interpreter Lock
22. **Coding:** Search an element in an array
23. Any questions

Duration: 14 Minutes

HR Interview:

1. Introduce yourself
2. About your Projects
3. How do you see yourself growing in the next 5 years?
4. What motivates you to work hard?
5. Why you want to join LTIMindtree
6. What is more important to you: job satisfaction or salary?
7. Ready to relocate

Interview Experience 22

Duration: 30 Minutes

Technical Interview:

1. Tell me something about yourself
2. About your Projects
3. What was your specific role and contribution in the project?
4. Explain Encapsulation with real life examples.
5. Types of Inheritance
6. DBMS and RDBMS difference
7. Primary and Foreign Key difference
8. **SQL Query:** Fetch duplicates in a table
9. **Coding:** Bubble Sort
10. **Coding:** Armstrong number
11. Tell me about your strengths
12. Your weaknesses.
13. Any questions

Duration: 15 Minutes

HR Interview:

1. Introduce yourself
2. Show your Aadhar card
3. What are your hobbies

4. Tell me about a time you failed and what you learned from it.
5. Why should we hire you over other candidates?
6. Who is your role model, and why?
7. Any Questions

(NEW AND UPDATED ONE)

Interview Experience 23

Duration: 30 Minutes

Technical Interview:

1. Tell me something about yourself
2. Explain your major Tech stack of your Project
3. About the Technologies and Frameworks
4. Explain Synchronized methods
5. Multithreading in JAVA
6. What is Normalization
7. About BCNF
8. Types of SQL Joins
9. Deadlock and its Prevention
10. TCP and UDP
11. Widely use OOPs Language
12. Difference between final, finally, and finalize()

13. LIFO and FIFO real life examples
14. **Coding:** Mean and Median of an array
15. Quick sorts logic
16. **SQL Query:** Retrieve employees who don't have a manager
17. About your hobbies
18. About your Strengths
19. Any questions

Duration: 17 Minutes

HR Interview:

1. Introduce Yourself
2. Tell me about your project and team size
3. What motivates you
4. How do you handle conflicts in a team
5. How do you handle work under pressure
6. Strength and weakness
7. Ready to relocate
8. Why do you want to join LTIMindtree

Interview Experience 24

Duration: 25 Minutes

Technical Interview:

1. Tell me something about yourself
2. About Your Internships
3. Tell me about your project and team size
4. Difference between REST and SOAP APIs
5. What are HashMaps in Java
6. Exception Handling
7. Explain Indexing in SQL
8. SQL Triggers
9. Clustered vs Non-clustered
10. **SQL Query:** Get department with max employees
11. OSI model layers
12. Types of LinkedLists
13. Detect cycle in a Linked List
14. **Coding:** Remove consonants in a string
15. **Aptitude:** The product of two numbers is 3780 and their GCD = 9. Find their LCM
16. Any questions

Duration: 15 Minutes

HR Interview:

1. Introduce Yourself in 1 minute.
2. Do you want to pursue higher studies
3. Tell me about a failure and how you overcame it
4. Where do you see yourself in 5 years
5. Why should we hire you
6. Ready to relocate
7. Any questions

Interview Experience 25

Duration: 25 Minutes

Technical Interview:

1. Self Intro
2. Tell me about your Project
3. What problem it solved
4. If you had more time what you will change or add in your Project
5. What are anomalies
6. Data Redundancy and Data Dependency
7. Difference between Process and Thread
8. About thread lifecycle

9. **Coding:** Find Longest Palindromic Substring.
10. Explain Virtual Functions in C++.
11. Does C Supports Function Overloading
12. Encapsulation
13. Built-in data types in C
14. Explain Inheritance in OOPs with an example
15. Types of Inheritance
16. Tell me about your favorite subject and why
17. SQL joins
18. RDBMS vs DBMS
19. What is Normalization
20. Any questions

Duration: 15 Minutes

HR Interview:

1. Introduce Yourself
2. How do you manage deadlines in projects
3. Your Hobbies
4. What motivates you
5. Your extracurricular activities
6. Where do you see yourself after 5 years
7. Do you prefer working in a team or individually
8. Why LTIMindtree
9. How do you keep yourself updated
10. Any questions

Interview Experience 26

Duration: 30 Minutes

Technical Interview:

1. Self Introduction
2. Explain your Internship experience
3. How you maintain Security
4. Multiple Inheritance in Java – why not supported
5. What is Polymorphism
6. Types with OOPs code example
7. Java- Platform Independent
8. Source code and byte code
9. DBMS vs File System
10. Paging and Segmentation
11. Describe typical college day
12. primary and secondary index
13. What is Referential Integrity
14. Types of keys
15. OLAP and OLTP
16. Operating System
17. States of Operating system
18. **Coding:** Perfect number
19. **SQL Query:** Find 2nd max salary from employee table
20. Any Questions

Duration: 13 Minutes

HR Interview:

1. Tell me something about yourself
2. How do you manage stress
3. Tell about your projects and your role
4. Ready to relocate
5. Tell me about your strengths and weaknesses
6. How do you handle constructive criticism
7. LTIMindtree details
8. Any questions

Interview Experience 27

Duration: 35 Minutes

Technical Interview:

1. Self Introduction
2. About Projects
3. What was your exact role and contribution in the project
4. Future scope of the Project
5. OOPs concept in details
6. What is a pointer
7. What is a NULL pointer and void pointer?

8. Virtual Functions in C
9. Struct and Union
10. malloc(), calloc(), realloc()
11. Data hiding and Data Security in OOPs
12. CHAR and VARCHAR data types
13. **SQL Query:** Display employees who joined in last 6 months.
14. Implement Merge Sort
15. Paging and Segmentation
16. Types of Keys in SQL
17. transaction and acid properties
18. **Coding:** Find LCM and GCD of given numbers.
19. Any questions

Duration: 10 Minutes

HR Interview:

1. Tell me something about yourself
2. Why you choose this branch
3. How do you prioritize work
4. Strength and weakness
5. Are you open to relocation

Interview Experience 28

Duration: 30 Minutes

Technical Interview:

1. Tell me something about yourself
2. About Internships and Projects
3. Technologies, frameworks, and tools did you use
4. Method overloading and method overriding
5. Constructor and Destructors
6. Difference between Abstract class and Interface.
7. Tell me about your Academic Achievements
8. What is 2 Phase Commit Protocol
9. 2 Tier and 3 Tier Architecture
10. Functional Dependencies in DBMS
11. Prime and NonPrime Attribute
12. Candidate Key and Super key
13. States of Transaction
14. **SQL Query:** Display departments having average salary > 50000
15. What are Design Patterns in Java?
16. What is Singleton Pattern
17. **Coding:** Diamond Problem Code
18. Z index
19. 5 tags of HTML

20. Any questions

HR Interview:

Status: **Not Selected For HR**

Interview Experience 29

Duration: 25 Minutes

Technical Interview:

1. Tell me something about yourself
2. About your Project Details and Internships
3. Walk me through your Project Implementation
4. Tell me about your Academic Achievements
5. JVM, JDK, JIT, JRE
6. Static blocks and static initializers in Java
7. super keyword in java
8. 4 Pillars of OOPs with examples
9. Explain Polymorphism and its real-world examples.
10. Data Abstraction
11. Functional Interface and Abstract Class
12. **Coding:** Write code to reverse a Linked List
13. Difference between BFS and DFS
14. Explain OS Scheduling Algorithms

15. **SQL Query:** Count students admitted year-wise
16. Heap vs Stack Memory
17. Aging and Starvation
18. About Dijkstra's Algorithm
19. Graph and tree dsa
20. Types of data structure
21. Any questions

Duration: 10 Minutes

HR Interview:

1. Self Introduction
2. Why should we hire you
3. Money or learning
4. Why join LTIMindtree
5. Ready to relocate

Interview Experience 30

Duration: 22 Minutes

Technical Interview:

1. Tell me something about yourself
2. About your Project Details
3. How you tested your project

4. Techstacks of your project
5. **Coding:** Remove space from the string
6. What is Round Robin Scheduling
7. FCFS
8. Deadlock Avoidance with Bankers Algorithm
9. Explain Primary vs Secondary Index
10. Left, right, Inner and Outer Join
11. **SQL Query:** Write SQL to fetch duplicate rows without DISTINCT
12. What are Normal Forms up to BCNF
13. Primary Key, Candidate Key, and Alternate Key
14. Lambda Expressions
15. Multithreading
16. DELETE, TRUNCATE and DROP
17. Explain destructors
18. What is Thread Lifecycle
19. Stack using Recursion
20. Any Questions

Duration: 16 Minutes

HR Interview:

1. Self Introduction in brief
2. Tell me about your Projects and Role
3. Strength and weakness

4. Tell me about your leadership experience
5. Where do you see yourself after 5 years
6. How handle tight deadlines
7. Ready to relocate

Interview Experience 31

Duration: 35 Minutes

Technical Interview:

1. Tell me something about yourself
2. About your Project Details
3. **Coding:** Missing Number in an array of 1 to N
4. **Aptitude:** A alone can finish a job in 12 days and B alone in 18 days. How long together
5. **SQL Query:** Get 5th highest salary using Dense_Rank()
6. SQL views
7. Normalization and Denormalization
8. 1NF, 2NF, 3NF, 4NF, BCNF
9. Compile and Runtime Polymorphism
10. How getter and setter helps in data security
11. function pointers in C
12. Typedef in c
13. Command lines arguments in C
14. Stack and Queue

15. Types of Queue
16. Deadlock vs Race Condition
17. LIFO and FIFO
18. WHERE and HAVING clauses
19. Explain pointer to pointer (int **ptr)
20. Any questions

HR Interview:

Status: **Not Selected For HR**

Interview Experience 32

Duration: 30 Minutes

Technical Interview:

1. Self Intro
2. About your Internships
3. Explain Spring Boot features
4. Difference between REST and SOAP APIs
5. Dependency Injection
6. **Coding:** Find frequency of characters in a string
7. **SQL Query:** Fetch students whose admission is between 2000 to 2005
8. SQL Constraints
9. 1D, 2D, and multi-dimensional arrays

- 
10. Applications of stack
 11. Stack and Queue operations
 12. Explain about main() method in java
 13. Hashmap and Hashtable
 14. Explain “Public static void main String Args”
 15. Mutex and Semaphore
 16. Entities and attributes
 17. What is a composite key
 18. ER Diagram
 19. SQL joins
 20. Normalization
 21. Types of Normalization
 22. Advantages of DBMS over File system
 23. Any Questions

Duration: 7 Minutes

HR Interview:

1. Tell me something about yourself
2. Rate yourself in problem solving skills
3. How do you handle conflicts in your team
4. LTIMindtree details
5. Any questions

Interview Experience 33

Duration: 32 Minutes

Technical Interview:

1. Self Intro
2. About your Project Details
3. Explain your project with challenges faced
4. How you overcome it
5. Implementation description of a specific part of code
6. **Coding:** Find unique elements in array
7. **SQL Query:** Retrieve duplicate rows using GROUP BY
8. Why main() method is public, static and void in java
9. Enqueue and Dequeue
10. Virtual Memory in OS
11. Paging and Demand Paging
12. DELETE, DROP, and TRUNCATE
13. Deadlock Detection vs Prevention
14. Java Collections Framework
15. ArrayList and LinkedList
16. Types of Linkedlists
17. Implement stack using queue
18. Difference between primary key and unique key
19. What is a binary tree and a binary search tree (BST)
20. full binary tree and complete binary tree

21. Data Encapsulation with an examples
22. Interface and abstract class
23. Any questions

Duration: 16 Minutes

HR Interview:

1. Tell me something in brief about yourself
2. Your Hobbies
3. Tell me something not mentioned in your resume
4. describe your background in one line
5. Family details
6. What inspired you to choose this branch
7. Ready to relocate

Interview Experience 34

Duration: 27 Minutes

Technical Interview:

1. Self Intro
2. Explain your projects
3. Technologies or tools did you use in your project
4. Why you choose this technology stack
5. **Coding:** Write a program to check balanced parentheses

6. **SQL Query:** Display department with max average salary
7. Implement Binary Tree Traversals
8. OS scheduling types
9. TCP and UDP
10. OSI Layers
11. 4 OOPS pillars
12. Copy constructor
13. destructor be overloaded
14. abstract class and interface
15. UNION and UNION ALL
16. Cross Join and Self Join
17. What is Group by
18. Explain Cache Memory
19. Class and object
20. Difference between '>>' and '>>>' operators in java
21. Any questions

Duration: 12 Minutes

HR Interview:

1. Self introduction
2. Top 3 strengths
3. Biggest weakness
4. What attracted you to the IT industry

5. short-term and long-term career goals
6. Are you a team player or individually player
7. Ready to Relocate

Interview Experience 35

Duration: 22 Minutes

Technical Interview:

1. Introduce Yourself
2. Tell me about your Projects in brief
3. Contribute individually to the project or in group
4. Your Role and Contribution
5. **SQL Query:** Display employees with NULL manager ID
6. **Coding:** Count frequency of each word in a string
7. DDL, DML, DCL, and TCL
8. Char vs varchar in SQL
9. SQL Joins
10. Paging and Segmentation
11. Overloading vs Overriding
12. SQL view
13. How we update data through a view
14. 'IS-A' and 'HAS-A' relationship in java
15. Null mean in java
16. Packages in java

17. Transaction and ACID Properties

18. Any questions

Duration: 20 Minutes

HR Interview:

1. Tell me something about yourself
2. Mention something that is not in your resume
3. NCC camp
4. Its participation
5. About sports and Activity
6. Ready to relocate
7. Any questions

Interview Experience 36

Duration: 25 Minutes

Technical Interview:

1. Tell me something about yourself
2. About your Internships and Projects
3. Faced any challenges in the project
4. How did you overcome them
5. Semaphore in OS
6. **Coding:** Find unique and duplicate elements in an array

- 
7. Explain 4 pillars of OOPs
 8. Overloading vs Overriding
 9. Main features of OOPs
 10. Object and Class
 11. Data Hiding and data security
 12. Encapsulation and access specifiers
 13. Implement Binary Search.
 14. Virtual memory
 15. Primary Key, Unique Key, and Foreign Key
 16. Deadlock Prevention
 17. States of Operating System
 18. Can a constructor be inherited
 19. Or what about private members
 20. WHERE and HAVING clause
 21. Cross and self join
 22. Any questions

Duration: 13 Minutes

HR Interview:

1. Tell me something about yourself
2. Tell me about a time you failed and what you learned
3. Are you fine working in different domains
4. How do you handle conflicts in a team

5. What motivates you to perform well
6. Rate yourself
7. Ready to relocate

Interview Experience 37

Duration: 35 Minutes

Technical Interview:

1. Tell me something about yourself
2. About your Projects in brief
3. What problem does your project solve
4. What improvements can be made in your project in future
5. **SQL Query:** Display duplicate rows without DISTINCT
6. **Coding:** Sum of AP Series
7. **Aptitude:** An array is given with a number of elements, Find Mean, median and Mode.
8. Overloading vs Overriding
9. Types of constructor
10. OOP and POP
11. Subquery and Stored procedure
12. Normalization and denormalization
13. Data redundancy and Data dependency
14. UNION and UNION ALL
15. Data abstraction and encapsulation

16. Difference between inheritance and composition
17. Types of Inheritance
18. Python decorator and Iterator
19. Pickling in Python
20. PEP8
21. Any questions

Duration: 15 Minutes

HR Interview:

1. Walk me through your resume
2. Why did you choose IT as your career path
3. Describe a time you managed multiple priorities
4. How do you handle negative feedback
5. Why you want to join LTIMindtree
6. Ready to relocate

Interview Experience 38

Duration: 20 Minutes

Technical Interview:

1. Self Intro
2. About your Internships and projects

3. Which part of your project are you most proud of, and why
4. What was your role in the project
5. **Coding:** Prime number code
6. **Coding:** Check for perfect number
7. Primary and unique key
8. Foreign key and composite key
9. DBMS vs RDBMS
10. How is it different from a file system
11. What is a view
12. Advantages of using views
13. compilers and interpreters
14. Runtime Polymorphism
15. Getter and Setter method
16. Data abstraction
17. Any questions

Duration: 10 Minutes

HR Interview:

1. Tell me something about yourself
2. What is your biggest achievement
3. Why do you want to work with LTIMindtree
4. What are your future aspirations

5. Ready to relocate
6. Your Motivation
7. Any questions

Interview Experience 39

Duration: 35 Minutes

Technical Interview:

1. Self Intro
2. About your Internships
3. What kind of database did you use and why
4. Ensure security in your projects
5. How did you manage version control
6. **Coding:** Find Kth largest element in an array
7. Clustered and non-clustered index
8. Materialized view
9. INNER JOIN, LEFT JOIN, RIGHT JOIN, and FULL JOIN
10. Types of keys in SQL
11. DBMS vs RDBMS
12. commit and rollback
13. What is concurrency control in DBMS
14. HTTP and HTTPS
15. What are Generics in Java
16. Identifiers and Access modifiers

17. What is Error and Exception
18. Exception Handling
19. Demand paging
20. RoundRobbin vs FCFS
21. Cache memory
22. What is Big-O notation
23. Stack and Queue Operations
24. With real life Example
25. Any questions

HR Interview:

Status: **Not Selected For HR**

Interview Experience 40

Duration: 27 Minutes

Technical Interview:

1. Tell me something about yourself
2. Your project in details
3. Which technologies, programming languages, or frameworks did you use
4. It is a very good project, how you will add data to save the record in future if required

5. **Coding:** Write a program to rotate an array by k positions
6. SQL vs NOSQL
7. Anomalies in DBMS
8. Schema, state and ER
9. Entities and attributes
10. Hashmap and Hashtable
11. Applications of hash tables
12. Deadlock vs Starvation
13. Deadlock prevention
14. What are Streams in Java 8
15. Main method in java
16. Garbage collection in Java
17. how many ways we can do exception handling in java
18. Abstract class and Interface
19. **SQL Query:** Retrieve 2nd and 4th highest salary
20. Polymorphism and types
21. With real life examples OOPs concept explain
22. Any questions

Duration: 20 Minutes

HR Interview:

1. Tell me about yourself in 3 lines

2. What does professionalism mean to you
3. Describe a time when you took initiative
4. How would your friends describe you
5. your weaknesses and how do you overcome them
6. LTIMindtree details
7. About Projects and Role
8. Ready to relocate

Interview Experience 41

Duration: 24 Minutes

Technical Interview:

1. Tell me something about yourself
2. Explain our Internships
3. What new skills did you acquire from your internship
4. Role and Contribution
5. **Coding:** Find minimum and maximum of a digit
6. What are Cursors in SQL
7. SQL triggers
8. difference between abstraction and encapsulation
9. Types of polymorphism
10. Normalization and
11. Explain BCNF
12. Types of SQL Keys

13. logical schema and physical schema
14. Can a constructor return a value? Why/Why not with reason
15. **SQL Query:** Display employees with the same salary.
16. About Kadane's Algorithm
17. Operator overloading and Operator Overriding
18. Virtual and Pure Virtual function
19. difference between final, finally, and finalize()
20. Arraylist and Linkedlist
21. **Aptitude:** A sum of ₹12,000 amounts to ₹14,400 in 2 years at simple interest. Find the rate of interest per annum.
22. Any questions

Duration: 13 Minutes

HR Interview:

1. Tell me about yourself
2. How do you adapt to new technologies
3. What do you mean by IT industry
4. How do you define success
5. What do you expect from your first job
6. Ready to relocate

Interview Experience 42

Duration: 32 Minutes

Technical Interview:

1. Self Introduction in brief
2. About Your projects
3. Did your project include APIs
4. What challenges did you face in integrating different modules and how you solve it
5. **Coding:** Fibonacci number
6. **SQL Query :** Retrieve employees whose salary > average salary.
7. Prefix and Post fix operations
8. Referential Integrity in DBMS
9. Views in SQL
10. Linked List and types
11. Primary, unique and Foreign Key
12. Constructor and Destructor.
13. Cache memory
14. Collections in Java
15. Package and Module
16. Static and Dynamic Binding
17. Checked vs Unchecked Exceptions
18. Access Specifiers

19. Demand Paging and paging in OS

20. Any questions

Duration: 14 Minutes

HR Interview:

1. Tell me about yourself in brief
2. How do you manage stress during exams or deadlines
3. What is your biggest learning from college
4. Your projects and role
5. What challenges you faced and how you overcome
6. Tell me about a time you helped a teammate.
7. Any questions

Interview Experience 43

Duration: 32 Minutes

Technical Interview:

1. Tell me something about yourself
2. About internships and Projects details
3. Role and Contribution in the Project
4. **Coding:** Find longest common prefix from an array of string
5. Explain Encapsulation with example in Java
6. Difference between final, finally, and finalize

- 
7. Garbage Collection in Java
 8. GROUP BY and ORDER BY
 9. WHERE and HAVING clause
 10. Clustered Index and Non-clustered Index
 11. **SQL Query:** Find duplicate rows in a table
 12. Primary Key vs Unique Key vs Foreign Key
 13. ACID properties in DBMS
 14. Process and Thread
 15. Thread Lifecycle
 16. Paging vs Segmentation
 17. What happens if a class implements two interfaces having the same default method
 18. Encapsulation
 19. Access specifiers
 20. Explain Deadlock avoidance
 21. Banker's Algorithm
 22. Any questions

Duration: 10 Minutes

HR Interview:

1. Self Intro
2. What's your approach to teamwork
3. What do you think about the IT industry in the next 5 years

4. How do you handle pressure situations
5. Your Hobbies
6. About relocation

Interview Experience 44

Duration: 37 Minutes

Technical Interview:

1. Tell me something about yourself
2. How many members were in your team
3. Face any challenges and how you overcome it
4. **Coding:** Reverse an Array
5. different CPU Scheduling algorithm
6. Stack and Queue operations
7. 4 pillars of OOPs in depth
8. Abstract Class and Interface
9. Can an interface extend another interface
10. String, StringBuffer, StringBuilder
11. **SQL Query:** Find employees without a department
12. Explain different types of Normal Forms
13. Difference between Paging and Swapping.
14. Types of Linkedlist
15. Create a linked list and explain

16. BFS and DFS
17. Types of data structure
18. try and catch keywords in java
19. Can a private method be overridden in Java
20. Explain Producer-Consumer problem
21. Implement stack with min() in O(1)
22. **Coding:** Reverse Your name
23. Any questions

Duration: 16 Minutes

HR Interview:

1. Tell me about yourself in 1 Line
2. Extracurricular activities
3. Describe your project in simple terms.
4. How you deal with tight deadlines
5. stay motivated in repetitive work
6. Your strengths that align with this role
7. LTIMindtree details
8. Any questions

Interview Experience 45

Duration: 22 Minutes

Technical Interview:

1. Self Introduction in brief
2. Your Project details
3. Which technology you used
4. What problem does your project solve
5. JDK, JVM, JRE and JIT
6. **Coding:** 2nd Largest number in an Array
7. **SQL Query:** Display employee details who earn same as manager
8. Serialization and Deserialization in Java
9. try and catch keywords
10. Multiprogramming and Multitasking
11. ACID property with example
12. Paging and Swapping
13. four pillars of OOPs
14. Explain Normalization up to 3NF
15. What is Polymorphism? Explain with real-time example
16. final, finally, and finalize
17. Lambada Expressions
18. Normalization and Denormalization
19. Cursors and Triggers in SQL

20. Context Switching

21. Any questions

Duration: 10 Minutes

HR Interview:

1. Tell me about yourself in brief
2. Tell me about your projects
3. What technology you used
4. What did you contribute personally in your project
5. Strengths and weakness
6. About Relocation

Interview Experience 46

Duration: 20 Minutes

Technical Interview:

1. Tell me something about yourself
2. Your internships
3. architecture of your project
4. Database used in your project
5. What optimization techniques did you apply in your project
6. What is the use of default keyword in interfaces
7. Types of Inheritance

8. How are interfaces different from abstract classes when adding new methods
9. mutable and immutable data types in Python
10. Scopes and Namespace
11. purpose of the `yield` keyword
12. Threads and Runnable Interface
13. Binary search tree and Binary tree
14. primary key and foreign key
15. Entity and Attributes
16. Candidate and Super key
17. SQL Constraints
18. **Coding:** find frequency of characters in a string
19. **SQL Query:** Count total employees in each department
20. Any questions

Duration: 15 Minutes

HR Interview:

1. Self Intro
2. How do you react when plans don't go as expected
3. Why this branch
4. How do you handle criticism
5. Your projects in simple terms
6. Your volunteer activity you mentioned in resume

7. About Relocation

8. Any question

Interview Experience 47

Duration: 25 Minutes

Technical Interview:

1. Introduce Yourself
2. Your Internships
3. How many members were in your team
4. What improvements can be made in your project
5. object cloning and object serialization
6. Explain the “has-a” vs “is-a” relationship with examples
7. use of instanceof keyword in OOPs
8. different types of database relationships
9. SQL views
10. DELETE, TRUNCATE, and DROP
11. different types of Joins
12. **SQL Query:** Show employees with NULL manager ID
13. constructor chaining in Java
14. Static methods and variables
15. Lambda expressions in Java 8
16. Class and object
17. **Coding:** Remove spaces from the string

18. Stack and Queue
19. Your strengths and weakness
20. Your hobbies
21. Any questions

Duration: 14 Minutes

HR Interview:

1. Self Introduction
2. Your Hobbies
3. How do you react when plans don't go as expected
4. A situation you took an initiative as leader
5. What have you learned from your past experiences
6. How you react to negative comments
7. About LTIMindtree
8. Ready to relocate

Interview Experience 48

Duration: 25 Minutes

Technical Interview:

1. Self Introduction in brief
2. Explain your project in simple terms
3. face any challenges in the project

4. How did you overcome it
5. 4 pillars of OOPs
6. Overloading and Overriding
7. Constructor and destructor
8. Types of constructors
9. Can we catch more than one exception in single catch block
10. DDL,DML,DCL and TCL
11. SQL Joins
12. Primary key and Unique key
13. **SQL Query:** Retrieve 2nd highest salary using subquery
14. Tokens in C
15. Struct and union
16. Rate yourself from 1- 10
17. Types of CSS position
18. **Coding:** Remove duplicates from Array
19. Any questions

Duration: 15 Minutes

HR Interview:

1. Tell me something about yourself
2. How you stay updated with new technologies
3. What makes you different from other candidates
4. Strengths and weakness

5. What do you mean by continuous learning
6. Your short term and Long term goal
7. Ready to relocate
8. Any questions

Interview Experience 49

Duration: 30 Minutes

Technical Interview:

1. Tell me something about yourself
2. Your projects
3. Tools used in the project
4. Challenges you faced and overcome this
5. **SQL Query:** Delete duplicate entries in table
6. **Coding:** Check whether the number is Armstrong or not.
7. Bubble sort logic
8. final, finally, and finalize()
9. multithreading in Java and how is it achieved
10. abstraction improve code reusability and security
11. Can we achieve 100% abstraction without using interfaces
12. Primary and Foreign key
13. SQL constraints
14. SQL views
15. INNER JOIN ,LEFT JOIN, RIGHT JOIN

- 
16. ACID properties with real-time example
 17. FCFS and RoundRobin
 18. Context Switching
 19. States of Operating system
 20. Deadlock conditions
 21. Prevention
 22. Any questions

Duration: 6 Minutes

HR Interview:

1. Tell me something about yourself
2. your future learning goals
3. How do you manage your time
4. Your academic Achievement
5. Any questions

Interview Experience 50

Duration: 25 Minutes

Technical Interview:

1. Self Introduction in brief
2. Your projects
3. Explain your project modules and contribution

4. **Coding:** Find factorial using recursion
5. **SQL Query:** Retrieve employees whose names start with 'J'
6. Primary Key and Composite Key difference
7. Paging and Fragmentation
8. Thread Lifecycle
9. array and a pointer
10. Difference between ++i and i++
11. Call by value and call by reference
12. Why C , not other language
13. Why can't we create an object of an abstract class
14. What are access modifiers
15. How do they support encapsulation
16. Can private or final methods be overridden
17. HTTP and HTTPS
18. Internet protocol
19. Any questions

Duration: 12 Minutes

HR Interview:

1. Tell me something about yourself
2. Tell me about your personal interests
3. How do you ensure continuous learning
4. your biggest professional goal

5. How do you manage conflicts at work
6. About LTIMindtree details
7. What do you think that an ideal environment is
8. Ready to relocate

Interview Experience 51

Duration: 23 Minutes

Technical Interview:

1. Introduce Yourself
2. Explain your project — purpose, tech stack, role
3. improvements can be made in future
4. Explain 4 pillars of OOPs
5. Overloading and Overriding
6. Explain ACID properties
7. SQL joins
8. Cross join
9. data hiding in OOPs
10. Getter setter methods
11. LIFO and FIFO
12. Operations of stack and queue
13. Scheduler and Dispatcher
14. Quickset logic
15. What is OS

16. Types of OS
17. **Coding:** Find the missing number in the array.
18. Any questions

Duration: 10 Minutes

HR Interview:

1. Self Introduction
2. Tell me something that is not in your resume
3. Short and long term plan
4. How do you stay positive during tough times
5. Team harmony
6. Your project details
7. Show your aadhar card
8. Ready to relocate

Interview Experience 52

Duration: 21 Minutes

Technical Interview:

1. Tell me something about yourself
2. Your Projects
3. What inspires you to make the project
4. Did you work independently or in Group

5. Can you create an object without using the new keyword
6. **Coding:** Find Leaders in an array.
7. What is hierarchical inheritance
8. Hybrid Inheritance
9. Normalization and DeNormalization
10. Explain 1NF–BCNF
11. All keys in SQL
12. Abstract class and Interface
13. Generator and Iterator in python
14. Name space and Mapping
15. List and tuple
16. Set and dictionary
17. DDL, DML, DCL, TCL commands.
18. OS schedulers
19. OS types
20. Any questions

HR Interview:

Status: Not Selected For HR

Interview Experience 53

Duration: 20 Minutes

Technical Interview:

1. Tell me something
2. Your projects
3. optimization techniques
4. How you test your code
5. role of a constructor in OOPs
6. Can a constructor be private, Why would you make it private
7. Types of constructor
8. **Aptitude:** The ratio of ages of A and B is 3 : 5. If the sum of their ages is 64, find their present ages.
9. Types of Polymorphism
10. **SQL Query:** Retrieve department with no employees.
11. **Coding:** Check anagram strings
12. BFS and DFS
13. Paging and Segmentation
14. difference between @staticmethod, @classmethod, and instance methods
15. CHAR and VARCHAR
16. SQL aggregate functions
17. INNER JOIN and LEFT JOIN
18. Any questions

Duration: 10 Minutes

HR Interview:

1. Self Introduction
2. Your projects
3. Role and contribution
4. Ready to relocate
5. About LTIMindtree
6. Any questions

MOST ASKED COMMON CODING QUESTIONS

1. Find smallest number in an Array
2. Find Largest number in an Array
3. Reverse of a given Array
4. Second Smallest number in an Array
5. Second largest number in an Array
6. Count Frequency of each Element in an Array
7. Calculate sum of elements in an Array
8. Rearrange array in increasing-decreasing order
9. Find the Median of given Array
10. Average of all elements in an array
11. Remove Duplicates from an Array
12. Find all repeating elements of an Array

13. Find all non repeating elements of an Array

14. Search an Element of an Array

15. Number is Palindrome or Not

16. Check a number is Prime or Not

17. Number is Armstrong or Not

18. Even or Odd

19. Anagram

20. Number is Perfect number or Not

21. Number is Positive or Not

22. Sum of First N natural numbers

23. Sum of AP Series

24. Sum of GP series

25. Leap year or not

26. GCD of two number

27. LCM of two number

- 
28. Greatest of two numbers
 29. Greatest of Three numbers
 30. Swap two numbers without using any third variable
 31. Reverse digits of a number
 32. Maximum and minimum digit of a number
 33. Find Fibonacci up to N terms
 34. Factorial of a Number
 35. Power of a Number
 36. Factors of a number
 37. Sum of digits of a number
 38. Write a program to find Root of a Quadratic Equation
 39. Calculate area of Circle
 40. Bubble Sort

- 
41. Count numbers of vowels, consonants, spaces in string
 42. Remove all vowels from string
 43. Remove spaces from string
 44. Find ASCII value of a character
 45. Reverse a string
 46. Mean and Mode of an array
